# Best CSS Generators

# 1. Pure CSS Stripes Generator

No Flash, No Image, ONLY CSS. Generate Striped backgrounds using only CSS.

 <https://stripesgenerator.com>

The screenshot shows the 'CSS Stripes Generator' web application. The interface is clean and modern, with a light gray background. At the top, the title 'CSS Stripes Generator' is displayed in a stylized font, followed by navigation links: 'About Stripes', 'Samples', and 'Contact'. The main area is divided into several sections:

- Angle:** A text input field containing '45' and a circular gauge icon.
- Maintain Ratio:** A checkbox labeled 'Yes' which is checked.
- 1st Stripe:** A section with a 'Size' input field (20), a 'Color' dropdown (showing '#ee617d'), and a 'Color Name' input field.
- 2nd Stripe:** A section with a 'Size' input field (20), a 'Color' dropdown (showing '#3d6f8e'), and a 'Color Name' input field.
- + Add Stripe:** A blue button to add more stripes.
- Preview:** A rectangular area showing a preview of the generated striped background with diagonal stripes in pink and blue.
- Generated CSS Code:** A text area containing the CSS code for the stripes.
- Buttons:** At the bottom right, there are two buttons: 'Copy' (blue) and 'Save' (green).

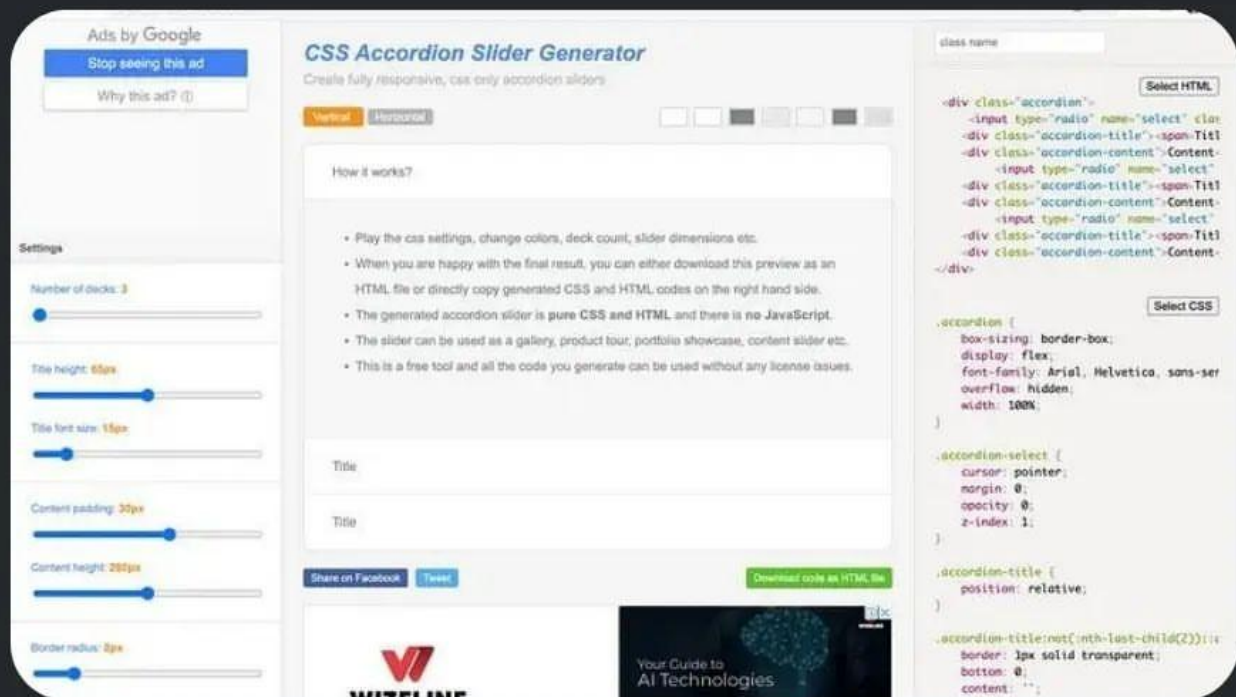

The generated CSS code is as follows:

```
background-image: linear-gradient(45deg,
#EE617D 25%, #3D6F8E 25%, #3D6F8E 50%,
#EE617D 50%, #EE617D 75%, #3D6F8E 75%,
#3D6F8E 100%);
background-size: 56.57px 56.57px;
```

## 2. CSS Accordion Slider Generator

This tool helps you to create fully responsive, CSS-only (no javascript) accordion sliders.

 <https://accordionslider.com>

## 3. CSS Gradient

As a free CSS gradient generator tool, this website lets you create a colorful gradient background for your website, blog, or social media profile.

 <https://cssgradient.io>

## 4. Cubic bezier

The CSS Cubic Bezier Generator will help you visualize how a transition is going to look.

 <https://cubic-bezier.com>

The screenshot shows the cubic-bezier.com website interface. At the top, the text `cubic-bezier(.17,.67,.83,.67)` is displayed with a "COPY" button. Below this is a "Preview & compare" section with a "GO!" button and a "Duration" slider set to 1 second. The main visual is a graph with "TIME" on the x-axis and "PROGRESSION" on the y-axis, showing a cubic bezier curve starting at (0,0) and ending at (1,1). A "SAVE TO LIBRARY" button is at the bottom left. On the right, a "Library" section with "IMPORT" and "EXPORT" buttons lists various curves: "ease", "linear", "ease-in", "ease-out", and "ease-in-out". A tip at the bottom right says: "Tip: Right click on any library curve and select 'Copy Link Address' to get a permalink to it which you can share with others." At the very bottom right, there is an advertisement for "Abel Develop" with the text "The healthy choice for software development teams." and "ids via Carbon".

## 5. Pattern Generator

This tool helps you create background patterns for free.
